

## Examination results

School and college performance data for the 2022/2023 academic year should be used with caution:

- In 2022/23, qualifications returned to pre-pandemic standards. Performance measures that are based on qualification results will reflect this, and cannot be directly compared to measures from 2021/2022.
- There are ongoing impacts of the COVID-19 pandemic, which affected individual schools, colleges and pupils differently.

| Performance indicator                                                              | 2022  | 2023  | 2024* |
|------------------------------------------------------------------------------------|-------|-------|-------|
| Progress 8                                                                         | -0.13 | -0.19 | -0.02 |
| Average Attainment 8 grade                                                         | 48.21 | 45.0  | 48.4  |
| Percentage of students gaining a strong pass (grade 5) in both maths and English   | 49    | 42    | 49.4  |
| Percentage of students gaining a standard pass (grade 4) in both maths and English | 66    | 62    | 68.5  |
| Percentage of Year 11 taking EBacc                                                 | 25.7  | 34    | 35.7  |
| EBacc average points score                                                         | 4.1   | 3.88  | 4.18  |
