

Privacy Notice (How we use pupil information)

The Earls High School is a member school of **Stour Vale Academy Trust**. The Trust and the school are joint data controllers for the purposes of Data Protection Law.

Why do we collect and use pupil information?

We collect and use pupil information under the following Acts of parliament and associated legislation:

The Education Act, amendments and accompanying regulations, for example: Section 537A of the 1996 Act enables the education setting to collect information to perform the Department of Education's termly census.

There are various versions of the Education Act both preceding and following the 1996 Act that have influence on what information is required and how it is processed such as: The Education Reform Act 1988, Further and Higher Education Act 1992, Education Act 1994, School Standards and Framework Act 1998, Teaching and Higher Education Act 1998, Education Act 2002, Higher Education Act 2004, Education Act 2005, Education and Inspection Act 2006 and Education Act 2011, The Education (Pupil Information) England Regulations 2005 and associated regulations and statutory instruments.

Where appropriate we also rely on:

The Children Act and subsequent amendments
The Common Law Duty of Care
Health and Safety at Work Act
Working together to Safeguard Children Guidelines (DfE)
Keeping Children Safe in Education (KCSiE)
Equality Act 2010
The Disability Discrimination Act
Special Educational Needs (SEN) Code of Practice
Safeguarding Vulnerable Groups Act
Limitation Act 1980

We collect and use pupil information for the following purposes:

- to support pupil learning;
- to monitor and report on pupil attainment progress;

- to provide appropriate pastoral care;
- to assess the quality of our services;
- to keep children safe (food allergies, or emergency contact details);
- to meet the statutory duties placed upon us for DfE data collections; and
- to comply with the law regarding data sharing.

The categories of pupil information that we collect, hold and share include:

- personal identifiers and contacts (such as name, unique pupil number, contact details and address);
- characteristics (such as ethnicity, language, gender, religion, date of birth, free school meal eligibility);
- special educational needs (including the needs and ranking);
- safeguarding information (such as court orders and professional involvement);
- medical and administration (such as doctor's information, child health, allergies, medication and dietary requirements);
- attendance information (such as sessions attended, number of absences and absence reasons, any previous schools attended);
- assessment and attainment information (such as Key Stage or internal academic assessment information);
- behavioural information (such as exclusions and any relevant alternative provision put in place).

For a further example of the information typically held by schools, please see the Department for Education (DfE) Common Basic Data Set, here:

<https://www.gov.uk/government/publications/common-basic-data-set-cbds-database>

Collecting pupil information

We collect pupil information via Microsoft form at the start of each academic year for registration and Common Transfer File (CTF) from previous school,

Whilst the majority of pupil information you provide to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with data protection legislation, we will inform you, at the point of collection, whether you are required to provide certain pupil information to us or if you have a choice in this, and we will tell you what you need to do if you do not want to share this information with us.

We intend to collect consent to process information for photos and school trips and where stated, social media; please note, you have a right to withdraw consent at any time and can contact the school to do this.

In some cases we may process pupil information following the completion of a legitimate interest assessment, e.g. video conferencing for online learning, where this is necessary and desirable for pupils' education.

If you provide us with contact details of others, for example, in case of emergency or when you may not be available, please ensure that they are aware their information has been passed to the school.

We will also receive the above types of personal information, where relevant, from the previous school and may also receive information from the Local Authority (LA) and the DfE.

Storing pupil data

The information we collect, use and store about pupils and their parents/carers is retained on our computer systems and in paper files, either until it is updated/superseded or until the pupil leaves the school where it will be passed on to the receiving school in accordance with the Education (Pupil Information) England Regulations 2005. Records are retained by a secondary school for the period of 25 years from the date of birth of the child (plus 6 years if SEN information). Further information on how long schools retain information can be seen in the Information Records Management Society Toolkit for Academies available at this link: [Academy records retention periods](#)

Who do we share pupil information with?

We routinely share pupil information with:

- Relevant staff within the school and Stour Vale Academy Trust
- schools that the pupils attend after leaving us
- our local authority
- the Department for Education (DfE)
- Health Services
- Individual student services such as:
 - Phase Trust
 - Sanctum (therapy)
 - WAT Centre
 - Early Help Assessment
 - Here4YOUth Dudley
 - Dear2Dream Foundation
- ActiveLearn
- Kerboodle
- Doodle
- School Cloud (parents evening system)
- School Comms
- This language
- HegartyMaths
- MyMaths
- Wonde
- Sanako
- School Life
- Class Charts
- Dudley Performing Arts

- CPOMS
- Educake
- IRIS Connect
- EdClass
- Canva
- GL Assessment
- Provision Map

We are committed to working with the local authority in protecting and safeguarding children and young people in the Borough. As a consequence we intend, where relevant to do so, to share information with the Multi-Agency Safeguarding Hub (MASH) which is a co-located arrangement of agencies including the local authority, Police, NHS Trusts and Probation Service integrated into a multi-agency team.

The MASH is the single point of contact for safeguarding concerns. The MASH share information appropriately and securely on children or young people in order to take timely and appropriate actions. The teams also provide information and advice across a range of child and family services.

Where a pupil/parent/carer has been involved in an accident, an Accident/Incident Report Form will be completed which will include details of the accident including information about you. This information will be held securely in our online and paper systems and in some cases, depending on the severity of the accident, made accessible to the Trust Central Team. In such instances, the information will be accessed by Trust employees, who legally require access to this data, for purposes related to the accident, and may be shared with others to allow us to comply with our statutory duties.

Aged 14+ qualifications

For pupils enrolling for post 14 qualifications, the Learning Records Service will give us a pupil's unique learner number (ULN) and may also give us details about the pupil's learning or qualifications.

Why we share pupil information

We do not share information about our pupils with anyone without consent unless the law and our policies allow us to do so.

We share pupils' data with the Department for Education (DfE) on a statutory basis. This data sharing underpins school funding and educational attainment policy and monitoring.

We are required to share information about our pupils with the DfE under regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013.

Data collection requirements

To find out more about the data collection requirements placed on us by the Department for Education (for example via the school census) go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>.

Youth support services

What is different about pupils aged 13+?

Once our pupils reach the age of 13, we also pass pupil information to our local authority and/or provider of youth support services as they have responsibilities in relation to the education or training of 13-19 year olds under section 507B of the Education Act 1996.

This enables them to provide services as follows:

- youth support services
- careers advisers

A parent or guardian can object to any information in addition to their child's name, address and date of birth being passed to their local authority or provider of youth support services by informing us. This right is transferred to the child/pupil once they reach age 16.

Data is securely transferred to the youth support service via **[insert method used]** and is stored **[insert storage]** and held for **[insert data retention period]**.

For more information about services for young people, please visit our local authority website: [\[insert website\]](#)

For more information about young people's services, please go to the National Careers Service page at <https://nationalcareersservice.direct.gov.uk/aboutus/Pages/default.aspx>

It is strongly recommended that pupils and their parents consider the importance and value of the information being shared with Youth Support Services as this information is used to identify young people within schools who will need support from the Connexions service to move to a positive destination after leaving school and therefore complies with the Raising of the Participation Age.

Local Authorities

We may be required to share information about our pupils with the local authority to ensure that they can conduct their statutory duties under

- the Schools Admission Code, including conducting Fair Access Panels.

Department for Education

The Department for Education (DfE) collects personal data from educational settings and local authorities via various statutory data collections. We are required to share information about our pupils with the Department for Education (DfE) either directly or via our local authority for the purpose of those data collections, under:

regulation 5 of The Education (Information About Individual Pupils) (England) Regulations 2013.

All data is transferred securely and held by DfE under a combination of software and hardware controls, which meet the current [government security policy framework](#).

For more information, please see 'How Government uses your data' section. For privacy information on the data the Department for Education collects and uses, please see: <https://www.gov.uk/government/publications/privacy-information-early-years-foundation-stage-to-key-stage-3>

and

<https://www.gov.uk/government/publications/privacy-information-key-stage-4-and-5-and-adult-education>

CCTV

This section of the privacy notice relates to our CCTV System, including, but not limited to, where it has been installed on the outside of some of our buildings.

What personal information does this service use?

The CCTV system captures images of people and vehicles in and around where a camera is located. Where fixed CCTV cameras are operating, there will be signs clearly displayed. Images captured by CCTV will not be kept for longer than 30 days. However, on occasions there may be a need to keep images for longer, for example where a crime is being investigated.

What is this personal information used for?

We use this personal data for the following reasons:

- a) To increase personal safety of pupils, staff and visitors, and reduce the fear of crime.
- b) To protect the school buildings and their assets.
- c) To support the Police in a bid to deter and detect crime.
- d) To assist in identifying, apprehending and potentially prosecuting offenders.
- e) To protect members of the public and private property.
- f) To assist in managing the school.

What is the lawful basis we are relying on?

We collect and use this information to ensure the school can undertake its remit to educate children ensuring personal safety of pupils, staff and visitors, protecting school buildings and its assets and to assist in managing the school (Article 6(1)(e) of the UK General Data Protection Regulation). The school will use the 'Passport to Compliance', issued by the Surveillance Camera Commissioner, to ensure that the surveillance camera system complies with the Guiding Principles set out in the Surveillance Camera Code of Practice published by the Home Office as a requirement of the Protection of Freedoms Act 2012.

Where has your personal information come from?

The images are captured because you are present in the area which is covered by the CCTV system.

Who will we share this personal information with?

Your personal data is shared securely with the following, where it is both necessary and appropriate to do so:

- Relevant staff within the school
- Our local authority
- The Police

Requesting access to your personal data

Under data protection legislation, parents and pupils have the right to request access to information about them that we hold. To make a request for your personal information, or be given access to your child's educational record, contact The Business Manager.

You also have the right to:

- object to processing of personal data that is likely to cause, or is causing, damage or distress;
- prevent processing for the purpose of direct marketing;
- object to decisions being taken by automated means;
- in certain circumstances, have inaccurate personal data rectified, blocked, erased or destroyed; and
- a right to seek redress, either through the ICO, or through the courts.

The Trust, in line with statutory guidance, will respond to Subject Access Requests within one calendar month. However, if the request is received during the school holiday, we will liaise with the requestor to seek their agreement to treat receipt of the request as being on the first day back at school and will respond within the timescale outlined above.

If you have a concern or complaint about the way we are collecting or using your personal data, you should raise your concern with us in the first instance or directly to the Information Commissioner's Office at <https://ico.org.uk/concerns/>

For further information on how to request access to personal information held centrally by DfE, please see the 'How Government uses your data' section of this notice.

Withdrawal of consent and the right to lodge a complaint

Where we are processing your personal data with your consent, you have the right to withdraw that consent. If you change your mind, or you are unhappy with our use of your personal data, please let us know by contacting the Headteacher.

Last updated

We may need to update this privacy notice periodically, so we recommend that you revisit this information from time to time. This version was last updated in September 2025.

Contact

If you would like to discuss anything in this privacy notice, please contact:

YourIG Data Protection Officer Service

Tel: 01384 815607

How Government uses your data

The pupil data that we lawfully share with the DfE through data collections:

- underpins school funding, which is calculated based upon the numbers of children and their characteristics in each school;
- informs 'short term' education policy monitoring and school accountability and intervention (for example, school GCSE results or Pupil Progress measures);
- supports 'longer term' research and monitoring of educational policy (for example how certain subject choices go on to affect education or earnings beyond school).

Data collection requirements

To find out more about the data collection requirements placed on us by the Department for Education (for example via the school census) go to <https://www.gov.uk/education/data-collection-and-censuses-for-schools>

The National Pupil Database (NPD)

Much of the data about pupils in England goes on to be held in the National Pupil Database (NPD).

The NPD is owned and managed by the Department for Education and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned by the Department.

It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

To find out more about the NPD, go to <https://www.gov.uk/government/publications/national-pupil-database-user-guide-and-supporting-information>

Sharing by the Department

The law allows the Department to share pupils' personal data with certain third parties, including:

- schools
- local authorities
- researchers
- organisations connected with promoting the education or wellbeing of children in England
- other government departments and agencies
- organisations fighting or identifying crime

For more information about the Department's NPD data sharing process, please visit: <https://www.gov.uk/data-protection-how-we-collect-and-share-research-data>

Organisations fighting or identifying crime may use their legal powers to contact DfE to request access to individual level information relevant to detecting that crime. Whilst numbers fluctuate slightly over time, DfE typically supplies data on around 600 pupils per year to the Home Office and roughly 1 per year to the Police.

For information about which organisations the Department has provided pupil information, (and for which project), or to access a monthly breakdown of data

share volumes with Home Office and the Police, please visit the following website: <https://www.gov.uk/government/publications/dfe-external-data-shares>

How to find out what personal information DfE hold about you

Under the terms of the UK Data Protection Act 2018, you are entitled to ask the Department:

- if they are processing your personal data;
- for a description of the data they hold about you;
- the reasons they're holding it and any recipient it may be disclosed to;
- for a copy of your personal data and any details of its source.

If you want to see the personal data held about you by the Department, you should make a 'subject access request'. Further information on how to do this can be found within the Department's personal information charter that is published at the address below:

<https://www.gov.uk/government/organisations/department-for-education/about/personal-information-charter>

To contact DfE: <https://www.gov.uk/contact-dfe>

Name of App	What does it do	Further Information	GDPR
Alliance in Partnership	Alliance in Partnership offers a fully integrated software solution via school to facilitate contact free ordering and payment for school meals which is designed to help schools reduce the time taken to administer expenditure every day.	For further information, please visit the Alliance in Partnership website	Alliance in Partnership Privacy Notice
Assembly	Assembly enables accessibility to personal data from the school's Management Information System to deliver a variety of apps and services on behalf of the school. As such Assembly ensures information security and enables the school to manage what access is given to personal data hosted on the school's Management Information System	For further information please visit the Assembly website	Assembly Privacy Notice
Avepoint	To provide ICT system resilience by accessing a backup solution for MS Teams, Exchange, SharePoint, and OneDrive data, with the functionality to find and recover the exact data the school wants quickly and easily with advanced search	For further information, please visit the Avepoint website	Avepoint Privacy Notice
Boxall Profile	Boxall Profile provides a resource for assessment and is used by professionals. Assessments are designed to help professionals understand and work more effectively with children and young people, in a way that's sensitive to the needs of the child or young person being assessed	For further information, please visit the Boxall Profile website	Boxall Profile website
Britannica School	Britannica School is a safe, up-to-date, and age-appropriate information resource for primary and secondary schools. Britannica School enables students to research encyclopedia articles, multimedia, primary sources, games, and other learning resources that support student assignments and projects, classroom exploration, and curriculum standards	For further information, please visit the Britannica School website	Encyclopaedia Britannica Privacy Notice

Canva	Canva operates an online design platform and media licensing service that enables users, members, artists, designers, photographers and others to design and collaborate. Canva provide ready-made media and content that is licensable for use in accordance with Canva's various licenses	For further information, please visit the Canva website	Canva Privacy Notice
Civica Education Operations	School Management Software is a cloud based system to support the back-office management and administration of schools, and trusts (formerly Parago)	For further information, please visit the Civica Education Operations	Civic Education Operations Privacy Notice
Class Charts	Class Charts is a behaviour management system where there are a series of reward management / escalations depending upon the nature of the issue reported, whilst reducing staff time, paperwork and administration. The behaviour management system includes the recording of positive and negative events	For further information, please visit the Class Charts website	Class Charts Privacy Notice
CPOMS	CPOMS is a software application for monitoring child protection, safeguarding, pastoral and welfare issues. CPOMS is an intuitive system to help with the management and recording of child protection, behavioural issues, bullying, special educational needs, domestic issues and more	For more information, please visit the CPOMS website	CPOMS and GDPR
Cunninghams EPoS Solutions	Cunninghams provide a cashless catering system to administer the receipt of lunch money in school. This eliminates the need for children to bring cash into school. The system uses biometrics to identify the account of each individual pupil. Under GDPR it would be necessary for the Data Controller to undertake a Data Protection Impact Assessment	For further information, please visit the Cunninghams Education Schools website	GDPR and Cunninghams EPos Group
E-Safe Monitoring Service	The e-Safe monitoring service uses the school ICT environment as a source of behaviour markers to provide early warning of safeguarding risk. The software is installed on all school owned devices that use the school computer network. The school may choose to install this software on school owned portable devices that can be used both inside and outside of the	For further information, please visit the e-Safe Education website.	Smoothwall Privacy Notice

	educational establishment. The software will continue to monitor activity on the device irrespective of location e.g. if the school owned device is used on a home computer network, the device will continue to monitor that device's activity		
EDClass	EDClass Ltd operates a SaaS (Software as a Service) by way of EDClass. EDClass is an online education service to help students engage in their learning when not attending their mainstream classes	For further information, please visit the EDClass website	EDClass Privacy Policy
Edukey	A system for managing Learning Plans and Provision Maps designed to assist SEN/ALN Co-ordinators with the management and review of provisions and interventions in their schools	For further information, please visit the Edukey website	Edukey Privacy Notice
EVM	To record staff and visitor movements in and out of the school during the day and to ensure that this is done in an effective and efficient way whilst taking into consideration Data Protection Law	For further information, please visit the EVM website	EVM Privacy Notice
Evolve	Evolve is an online risk assessment for educational visits	For further information, please visit the Evolve website	Evolve and GDPR
Frog Learn	Frog Learn is a Learning Management System centralising administration and pulling everything into one place. It provides a platform for staff and students to build their own applications, photos, audios and videos can be shared by using mobile devices, teachers can set homework and assignments and monitor and check them	For further information, please visit the Frog Learn website	Frog Education Ltd Privacy Notice
GL Education Assessment Testwise	GL Education (Assessment Testwise) is an instant assessment and tracking system which comprises of a suite of products, depending on the school's need. Star Assessments complement the student applications Accelerated	For further information, please visit the GL Education Assessment Testwise website	GL Education Assessment Testwise

	Reader, Accelerated Maths and myON which provide a personalised learning plan for each student, helping to inform next steps.		Privacy Notice
Health Assured and Wisdom app	The Wisdom App is a software system which enables users (staff) to access resources to track their wellness, improve their mental health and stay resilient during difficult times, provided through the company Health Assured as part of staff health and wellbeing. The information collected is the name, gender, phone number, date of birth and email address of the user. This will enable Health Assured to administer the Wisdom app.	For further information, please visit the Health Assured and Wisdom app website	Health Assured and Wisdom app Privacy Notice
Iris Connect	IRIS Connect is a system used by schools to assist in the professional development, educational research and learning development of teachers. It provides an evidence-based approach using video to assist teachers in the classroom setting in school. IRIS Connect enables the teacher to record lessons, quickly and easily, using a mobile camera system (using iPads). After the recording has taken place, the video is uploaded directly to the teachers personal password account on the IRIS Connect online platform where the teacher can then watch it back as part of personal reflection and share with a colleague for feedback	For further information, please visit the Iris Connect website	Iris Connect Privacy Notice
Juniper Education	Juniper Education is a cloud based system which enables the school to manage pupil information, upload documents, photos and other files to a website to share with others or to act as a backup copy. These files can then be accessed from any location or any type of device (laptop, mobile phone, tablet, etc)	For further information, please visit the Juniper Education website	Juniper Education Privacy Notice
Languagenut	Digital language online resource for primary and secondary schools. It is also available as an app with the student having a unique username and password. Languagenut can be accessed both at school and at home using the students log in details. Attainment is linked to an individual student profile	For further information, please visit the Languagenut website	Languagenut Privacy Notice

Literacy Shed	The Literacy Shed is a free app with wealth of visual resources aimed at providing high quality resources that can be used in standalone literacy lessons, can form the basis for a whole Literacy unit or can support literacy units that schools already have in place. Literacy Shed is intended for use by teachers to use with the children in the class when they find the films relevant and suitable	For further information, please visit the The Literacy Shed website	Literacy Shed Privacy Notice
Microsoft Online Services – Microsoft Office 365	Microsoft Office 365 is a cloud productivity suite free to establishments in UK education. It provides pupils, teachers, and staff with enterprise-grade communication and productivity services which include email, online document editing and storage space	For further information, please visit the Microsoft website	Microsoft Privacy Notice
Microsoft Forms	Microsoft Forms is part of Office 365 and allows schools to quickly and easily create custom quizzes, surveys, questionnaires, registration forms, and more. The content in these forms, as well as end user information, remains in the direct control of administrators and end users	For further information, please visit the Microsoft website	Microsoft Privacy Notice
Microsoft Teams	Microsoft Teams is part of Office 365 and allows schools to communicate with staff, School Governors, parents and other key stakeholders. Using Microsoft Teams it is also possible to set up a 'Live Event' whereby members of staff can present live to viewers who can be invited by an invite link. The event is one-way only and may be suitable for schools to deliver messages to large numbers, e.g. a virtual school assembly	For further information, please visit the Microsoft website	Microsoft Privacy Notice
Perspective	The school has identified a need to create a more targeted system which meets the needs of the child and the school, in respect to assessment and reporting, lesson planning, school improvement plans, performance management, inputting pupil's scores, viewing gap analysis to inform teaching and generating bespoke reports	For further information, please visit the Perspective website	Perspective Privacy Notice

Provision Map	Provision Map enables a school to improve their management of child special educational needs, whilst reducing staff time, paperwork and administration. Specifically it maps out SEN interventions helping professionals keep track with the pupil and staff involved in each intervention. It integrates SEN management cycle with automatic review reminders. Provision map generates cost, time, pupil premium and outcome reports in an instant. The outcome tracking feature makes it easier for the school to see the impact of the interventions and plans in place and for the school to take action accordingly	For further information, please visit the Provision Map website	Provision Map Privacy Notice
School Admissions Management (SAM)	Synergy manages the admissions, transfers and appeals processes across all schools and key stages from nursery to secondary school, along with transfers and in-year admissions. The school management software records details of school capacities, applications for places, decisions and automatic allocations based on specified criteria against admissions policies. Synergy provides a powerful and flexible search and selection process, so school place applications can be quickly retrieved and updated	For further information, visit the School Admissions Management website	SAM Privacy Notice
SchoolCloud	SchoolCloud is a communications management tool that facilitates the booking of meetings between the school and parents. The school hopes to achieve ease of management of the booking and conducting of meetings by adopting the platform. The platform provides a number of tools with which to help manage meetings and if necessary, conduct them over a video conference call to support remote discussions	For further information, visit the SchoolCloud website	SchoolCloud Privacy Notice
Schoolcomms	Schoolcomms provides an online platform which enables the school to improve communication and the management of key stakeholder engagement including parents, whilst reducing staff time, paperwork and administration	For further information, visit the Schoolcomms website	Schoolcomms Privacy Notice
Sign In app	Sign In App is a software system which enables the recording of visitors to the school. The information collected is the name, the place of work, the reason for the visit and photographs are taken. This information is not shared with anyone else outside of ourselves and Sign In App	For further information, visit the Sign In app website	Sign In app Privacy Notice

SIMS	A school management information system to help the school record pupil progress, set targets and analyse all assessment, attendance and behaviour for individuals, groups, classes and years	For further information, visit the SIMS website	SIMS Privacy Notice
SISRA Analytics	SISRA Analytics brings together pupil progress, performance and pastoral data, SISRA Analytics can be used throughout the school year, and not just focusing on exam results analysis. Data is made accessible across Key Stages, it is accessible to all staff, whilst simplifying the management process. Schools can upload quickly and easily from any Management Information System, on any internet-connected device, and give staff access to the information they need through a series of intuitive, easy-to-read reports	For further information, visit the SISRA Analytics website	SISRA Analytics Privacy Notice
Topmarks	Features games and whiteboard animations covering subjects including Art, Early Years, English, Geography, History, Languages, Maths, Music, Religious Studies, and Science. Topmarks does not collect or share personal data via the app. All pupil data is stored locally on the device	For further information, please visit the Topmarks Education website	Topmarks Privacy Policy
Trackit Lights	Trackit Lights is a behaviour management system which is used in the classroom setting to motivate good behaviour and reduce administrative workload in recording performance data. Statistics are gathered across the school to provide SLT with the ability to quickly review the performance across the school	For further information, please visit Trackit Lights	Trackit Lights Privacy Policy
Tucasi	Tucasi is a fully integrated software solution with a dinner money, extended day, and trip modules which is designed to help schools reduce the time taken to administer expenditure every day. The software is installed locally on a PC which links to a hosted database. Tucasi keeps track of individual pupil's balances as meals are recorded and payments taken, including the	For more information, please visit the Tucasi website.	Tucasi Privacy Policy

	option for parents to order and pay meals online. Tucasi can be accessed by the user via mobile devices		
Vaccination UK Ltd	Vaccination UK Ltd administer the flu vaccine to pupils	For further information, please visit the Vaccination UK Ltd website	Vaccination UK Ltd Privacy Statement
Wonde	Wonde enables accessibility to personal data from the school's Management Information System to deliver a variety of apps and services on behalf of the school. As such Wonde ensures information security and enables the school to manage what access is given to personal data hosted on the school's Management Information System	For further information, please visit the Wonde website	Wonde Privacy Notice
