Year 11 Autumn	Year 11 Spring	Year 11 Summer
<ul style="list-style-type: none"> • Challenges of an Urbanising World • Hazardous Earth - Climate 	<ul style="list-style-type: none"> • Hazardous Earth – Climate • Hazardous Earth – Tectonics • People and the Biosphere • Forests Under Threat • Consuming Energy Resources 	

Throughout the GCSE course students are expected to develop the following Geographical skills:

- Effective use of data and sources through numeracy and statistics
- Effective use of a range of maps of varying scales and foci
- Identify patterns and processes
- Develop enquiry skills
- Develop a greater understanding of places with some being studied in greater depth e.g. India and Birmingham

In addition we aim to develop language and literacy skills and exam technique using command words and key words. Homeworks are given to support the delivery of
