Topic	Sparx Code	Revised?
Finding percentages of amounts with a calculator	U349	
Understanding and ordering integers	U600	
Line and shape properties	U121	
Identifying parts of circles	U767	
Finding factors and using divisibility tests	U211	
Substituting into algebraic formulae	U585	
Changing the subjects of formulae	U556	
Calculating midpoints	U933	
Finding the area of triangles	U945	
Calculating with rates	U256	
Finding the volume of cubes and cuboids	U786	
Drawing and interpreting pictograms	U506	
Solving direct proportion word problems	U721	
Simplifying expressions by collecting like terms	U105	
Using algebraic notation	U613	
Converting between fractions, decimals and percentages	U888	
Sample space diagrams	U104	
Writing probabilities as fractions, decimals and percentages	U510	
Probabilities of mutually exclusive events	U683	
Drawing and interpreting scale diagrams	U257	
Calculating with rates	U256	
Constructing and solving equations	U599	
Fractions, decimals and percentages	U888	
Mixed numbers and improper fractions	U692	
Term-to-term rules	U213	
Frequency trees	U280	
Venn diagrams	U476	
Finding error intervals	U657	
Finding averages from grouped data	U877	
Percentage change	U671	
Finding the percentage an amount has been changed by	U278	
Calculating with roots and powers	U851	
Finding prime numbers	U236	
Finding unknown angles in right-angled triangles	U545	
Tree diagrams for independent events	U558
